Main Office, Standard Building, Anaconda, Telephone No. 45.

New York Office, 160-7 World Building.

The Standard has branch offices at Butte, Missoula and Great Falls.

All general business letters and correspondence should be addressed to the Standard Publishing Company, Anaconda, Mont.

THE BEST IN THE NORTHWEST.

The Standard's news service is the most complete. It has patrons in every part of the Great Northwest. Its service includes Anaconda, Butte, Helena, Missoula, Bozeman, Livingston, Phillipsburg, Granite, Great Falls, Deer Lodge, Dillon and all other important points.

Largest Daily Circulation in Montana.

# 10,345

NET DAILY AVERAGE FOR JULY.

State of Montana, County of Deer Lodge, ss.

Personally appeared before me, Hannibal H. Mayhew, a Notary Public in and for the County of Deer Lodge, State of Montana, W. R. Bond, Manager, and T. E. Butler, Circulator of the Anaconda Standard, who being sworn, depose and say: That the net daily average circulation of the Anaconda Standard for the month of July was 10,345.

W. R. BOND, Manager.

T. E. BUTLER, Circulator.

Subscribed and sworn to before me, in the City of Anaconda, this 31st day of July, 1894.

HANNIBAL H. MAYHEW, Notary Public.

Daily Average for July, 10,345

Daily Average for June, 9,282

Net Gain, 1,063

WEDNESDAY, AUGUST 1, 1894.

If the dispatches from the seat of war in the East be correct and Japan keeps up her lick on the sea there will be but little of the Chinese navy left in a few days. It must certainly be said of Japan that it is not playing a waiting game, but rather believes that the early bird catches the worm.

That was good news sent out to the Parrot employees in Butte yesterday. They have been idle since July 7, through no fault of their own or of the company, and when work is resumed to-day it is to be hoped that it will continue uninterrupted.

The Parrot employs a large force and shut-downs never occur unless there is an absolute necessity for them. Both the company and the employees are to be congratulated upon the resumption of work.

During a part of the month which closed with yesterday all the railroads in Montana except the Great Northern and its branches were shut down on account of the great strike. In consequence some of the STANDARD's contemporaries were unable to reach their readers during a large portion of the month. With customary enterprise, however, the STANDARD inaugurated a special service by which its readers were reached, as well as hundreds who had not hitherto been the paper's regular readers. The popularity of the STANDARD's special service during this period is attested by the substantial increase in average daily circulation during the month of July. There were 10,345 STANDARDS distributed on an average each day of the past month. The average for June was 9,282, showing the gratifying increase of 1,063 for July as compared with June. This circulation is verified by the affidavit which appears on this page this morning.

One-Sided Scheme.

It is remarkable how readily men who have been known as schemers and tricksters all their lives can suddenly become reformers when they have a purpose to accomplish. Of this class is ex-Senator Tom C. Platt of New York. For years this man has been known as one of the foremost of the politicians who run the republican machine in the great state. So outrageous has been his political conduct that he is justly known as "Boss" Platt, and he can and does manipulate the legislators and officials of his party faith in a most unblushing manner. In spite of his record Mr. Platt now coolly looks up as a reformer.

There has recently been an investigation into the conduct of the police force of New York city, in fact it is still in progress, and it has been developed that a number of the officials have been guilty of blackmailing respectable people and protecting them in their unlawful avocations. It has been further shown that most of the men are members of the great Tammany association or have secured their places through its influence. Tammany is a compact, well organized political body, democratic in politics, and as is well known it dominates in the political affairs of the city. Its administration may be as venal and its methods as reprehensible as is claimed, but that is not the question the STANDARD wishes to speak upon or call attention to. It desires to say a word relative to the impudence of "Boss" Platt in posing

as a reformer. For years it has been the burning desire of the republicans of New York to overthrow Tammany, but they have schemed in vain. The city is democratic by a large majority and even if Tammany did not exist that party would continue in control. Now, however, the opposition think they have an opportunity. It is in the shape of an effort to array democrats against their own party and the revelations made by the investigating committee is to be used as the weapon.

The plan is as old as it is simple. It consists of a proposition for a citizens anti-Tammany party composed of all elements which shall nominate a municipal ticket. To this there is no objection, but in the face of it Mr. Platt demands that the head of the ticket shall be a republican. This is the milk in the coconut. It is a declaration that among all the democrats in New York who are not Tammany men or among the citizens who are not identified with either party, and there are many of them, there is not one fit to fill the responsible position of mayor. It is hardly probable that the free democrats of New York will fall into the Platt trap. They will realize at once that Mr. Platt, like many other modern reformers, is only a reformer for what there is in it and they will drop him and his plan and let the republicans as a distinctive party nominate a candidate for mayor and elect him if they can.

The reception given by the citizens of Butte to Gen. A. J. Warner, president of the American Bimetallist league, yesterday was an appropriate compliment to a gentleman who is entitled to the highest consideration at the hands of the people of this state and of the entire country. The remarks of General Warner were timely. While they contained nothing new, save the expressions of hope for the cause of free silver, and the reasons upon which the hope is based they, to that extent, are worthy of perusal and consideration. As the gentleman stated, the key to the situation is held in the hands of the silver producing states and there is every reason why we of Montana should lose no opportunity of doing our share to accomplish the result. General Warner is certainly welcome to Montana.

The Chinese Celebration.

For some time the Chinese government has been preparing for a monster national exposition to be held this year in honor of the sixty-first birthday of the queen dowager. The display is to be confined exclusively to the varied productions of the empire and it was the intention and expectation to have it surpass the great expositions of the world, including that of Chicago. An idea of the immensity of the exposition can be gained when it is stated that the estimated cost is \$300,000,000 in American money. In addition to the great central exposition at Peking the plan contemplates celebrations in all the cities and towns of the empire. These will be held on a stated day and on that day the entire kingdom from one end to the other will be ablaze with glory, noise and festivity. Think of what a birthday the old lady will have. Queen Vic's jubilee will appear beside it in the light of a high five or pink tea at Stuart or Rocker.

Yet the Chinamen think she is worthy of it. After the death of her son, the heir apparent, she voluntarily placed her nephew upon the throne, but took good care to stand behind him and hold the reins over not only him but his ministers. In fact it is said by those acquainted with current Chinese affairs that this aged woman is the absolute mistress of the policy of the government. No mention is made of her ordinary expenses but if they compare at all with this proposed birthday she must be an extravagant sort of a ruler.

It must be remembered that all this pageant was projected and under way before the war cloud with Japan had arisen. Now that it has come. The people in this part of the world will wonder whether the queen dowager will not have to forego the wonderful Aladdin fete. It will be too bad to spoil her fun and glory, but a substitute can be suggested and China can accept or reject it just as it sees fit. On the day upon which the universal celebration was to have been held, let the Chinese army or navy engage the Japanese in a monster battle and lick them out of sight. This will go down to history as the queen dowager's battle, her name has escaped recollection, and will reconcile her to the loss of the big blow out. Besides this if she lives and the kingdom is not busted she can have her birthday next year.

In its day the congress of the United States has gone on record on some curious propositions. There was a time when congress tried to protect and preserve the morality of our members and all government employees by resolutions. It has been discovered that on October 16, 1778, after reading in a preamble that theatrical entertainments had a tendency to divert the mind from more serious things, congress "resolved that any person holding an office under the United States who shall act, promote, encourage or attend such plays, shall be deemed unworthy to hold such office, and shall accordingly be dismissed."

The Stone Immigration bill, which has been passed by the house of representatives, proposes to transfer the duty of examining immigrants from the authorities in this country to our consular agents abroad. It forbids entry to immigrants not provided with the consular certificate that they are desirable people. The contention has been all along that an inspector at New York can know but little of the

habits, morality and industry of an immigrant coming to this country from Europe, and that such inquiries properly should be made where the information can be obtained directly. Representative Stone urged that there is no reason why government officials in the state department should not perform their duties as faithfully in foreign countries as at home, and that under proper directions and instructions of the state department uniform rules can be adopted by which all the facts pertaining to the immigrant can be ascertained at the time of the investigation. Whether Mr. Stone's bill becomes a law or not, it is evident that more stringent measures must be adopted to keep undesirable immigrants away from this country.

MUST BELIEVE IN GOD.

Or You Cannot Vote in this Minnesota School District.

NORTHFIELD, Minn., July 31.—The protracted war between the church faction and the Thomas Payne faction in the Northfield school district, nine miles south of here, culminated in a terrible fight with clubs and guns. Robert Workman and William Barnhart were badly beaten and probably fatally wounded. Charles Graham and Reuben Page were badly hurt. This feud has been going on for three years. It was caused by the school house being used as a church by the Methodists and Presbyterians of three districts, the trustees being church members. The keys of the building were given to the church people. An altar was erected and Bible verses were hung upon the walls. Wood and oil have been used for three years past at the expense of the school district.

A successful effort was made to-night to remove a majority of the school board at a school election. This would result in throwing out the altar and discontinuing the use of the school house as a church. The chairman refused to acknowledge the result, claiming that those who elected anti-church officers do not believe in God and they ought not, therefore, to count. The old church board refused to give up the keys, and the courts will be resorted to.

CHOLERA SPREADING.

The Truth About It Is Said to Have Been Suppressed in Parts of Europe.

MADRID, July 31.—The Spanish consul at Marseilles has telegraphed that cholera is epidemic there, that the number of deaths daily is very large, and that the authorities are concealing the actual situation. The governor of Warsaw has forbidden the usual pilgrimage to Czestochowa on account of the prevalence of cholera.

CHARLEY WARREN GETS IT.

Important Changes on the Great Northern.

ST. PAUL, July 31.—The Great Northern Railway company has officially announced the appointment of Charles H. Warren to be general manager, vice C. W. Case, and R. I. Farrington controller, vice C. H. Warren. It is reported that numerous other changes in the general officers will follow.

AWAY BACK IN IOWA.

They Use Lamps and Trouble and Loss Result.

PORT DODGE, Iowa, July 31.—A fire started at Eagle Grove last night from the explosion of a lamp. A block and a half on the north side of the street, about 15 business houses, burned. Loss, \$600,000.

KNOCKED 'EM DEAD.

Malay Mussulmans Whipped by the Spanish.

PARIS, July 31.—A dispatch from a Calagaran on the island of Mindanao, of the Philippine group, says the Spanish troops have attacked and completely routed the Malay Mussulmans, killing about 250 of them.

Rainmakers Make a Go of It.

YANKTON, S. D., July 31.—Ten days ago rain making experiments were begun in this county under the direction of two citizens who visited a Kansas rainmaker and obtained his chemicals and received instructions in their use.

One ton of chemicals were consumed and last night one of the most voluminous rainstorms of the summer was ushered in. It extended over an area of 20 miles square in all directions from the experiment station near this city and in local cities as much as two and one-half inches of water fell. The rain saved the late corn and insured half a crop of hay.

She's All Right.

WASHINGTON, July 31.—The report of the trial board on the recent trial trip of the Minneapolis was completed and submitted to-day to Secretary Herbert by Commodore Belknap. According to the report the preliminary run from Philadelphia to Boston was made by the Minneapolis in 17 hours. In starting on her trial trip the vessel's displacement was 7,475 tons. The speed attained after making tidal corrections was 23.073 knots per hour. The performance of the machinery was highly satisfactory. The boilers performed well under forced draught and showed no evidence of priming.

Two Records Broken.

LIMA, O., July 31.—Ten events of the League of American Wheelmen, held here to-day, were witnessed by about 1,500 people. Two records were broken. In the two mile handicap, class A, Tom Cooper, starting from the scratch, finished the second mile in 4:39.45, breaking the world's record. Sanger rode an exhibition half, paced the first quarter by C. H. Callahan, in a minute flat, breaking the state record.

Want to See the Automatic Hanging.

HARTFORD, July 31.—John Crowin, the murderer, who is to be executed on the automatic gallows next month, has begun to break down. Warden Woodbridge of the prison has been besieged by requests for admission by newspaper men and others who want to witness the working of the new machine. The warden is allowed to have only 23 witnesses, and he has had to refuse many of the requests.

Gangway Is a Swift One.

LONDON, July 31.—The Steward's cup sweepstakes for 3-year-olds and upward, was won at Goodwood to-day by Sir J. Russell. Maple's 3-year-old, Gangway, won the second, Court Ball third.

He Killed a Striker.

MOOREHEAD, Mo., July 31.—Charles B. Clarke, the Wabash brakeman who during the recent strike shot and killed Alex McComb, a striker who was interfering with him, has been acquitted.

## WANTS HALF THE ESTATE.

Claimant Turns Up to Property of Mary A. Miller of Beloit.

BELOIT, Wis., July 31.—A romantic story has come to light. A short time ago David T. Miller and his wife, Mary A. Miller, died within two months of each other. They left no children, but had accumulated an estate. Mr. Miller died intestate, thus under the law leaving all the estate to his wife. Prior to his death Mrs. Miller had been appointed administratrix of the estate. Mrs. Miller died intestate, her next kin to whom the estate would descend, as it was understood, being Mrs. Frances L. Campbell, of Canton, O., and Miss Henn Bement and brother, Henry Bement, of Denver, Col. No other claimants appearing, the court was petitioned by the proper persons for the administration of the two estates, and after due notice J. B. Dow, having filed bonds, was appointed administrator of the estate.

Two men called at the office of Mr. Dow and were introduced as relatives, George E. A. Whitford, an attorney of Hastings, and Frank W. Finch, alias Holmes, nephew of Mary A. Miller. He said he left Beloit some 25 years ago. His father, Mordecai Holmes, was a brother of Mrs. Miller, whose maiden name was Anna Holmes. His father died in 1866 at Hastings, Minn., and his mother was married again to Dr. J. E. Finch. Being a boy at the time, young Holmes came to be considered a Finch, and, growing to manhood, adopted that name, and had no special reason for assuming his own until some two weeks since he learned that his aunt in Beloit, Mrs. Mary A. Miller, had died intestate and childless. He claims half the estate, worth \$40,000.

CAN'T UNDERSTAND IT.

The Gold Got Lost in a Most Mysterious Manner.

PARIS, July 31.—The police of France are investigating what is probably one of the most remarkable robberies on record, and it is believed the police of the United States will be asked to take a hand in the investigation. In some unaccountable manner a sack of gold from New York, valued at \$60,000, has been stolen while in transit from Havre to Paris. The gold was consigned to Lazard, Freres & Co.

Fair and Warm.

WASHINGTON, July 31.—For Montana: Fair and warmer in eastern portion; northwest winds.

Why Do You Cough?

Do you not know that Parks' Cough Syrup will cure it? We guarantee every bottle. There are many cough syrups, but we believe Parks' is the best and most reliable. Sold by Smith Drug Co. and Pardon D'Acheul Drug Co.

FAIR AND CLEAR

—that's the way your skin will be, if you'll take Dr. Pierce's Golden Medical Discovery. Eczema, Pimples, blotches, eruptions, and humors are utterly banished by this medicine. It takes away more thoroughly and certainly than anything else, the blood poisons or impurities that cause them.

For every Skin, Scalp, and Scrofulous affection, no matter how it came, the "Discovery" is a direct remedy. It cleanses, builds up, strengthens, and invigorates every part of the system. Eczema, Scrofula, Salt-rheum, Tetter, Boils, Carbuncles, Enlarged Glands, and the worst Scrofulous Sores and Swellings are completely and permanently cured by it.

Unlike ordinary spring medicines, the "Discovery" works equally well at all seasons.

Fractiously, it's sold on trial. If it ever fails to benefit or cure, you have your money back. You pay only for the good you get.

No cheap substitute, urged by a tricky dealer, though it may be better for him to sell, can be "just as good" for you to buy.
